

COVID-19 Weekly Status Report

September 05, 2023 - September 11, 2023

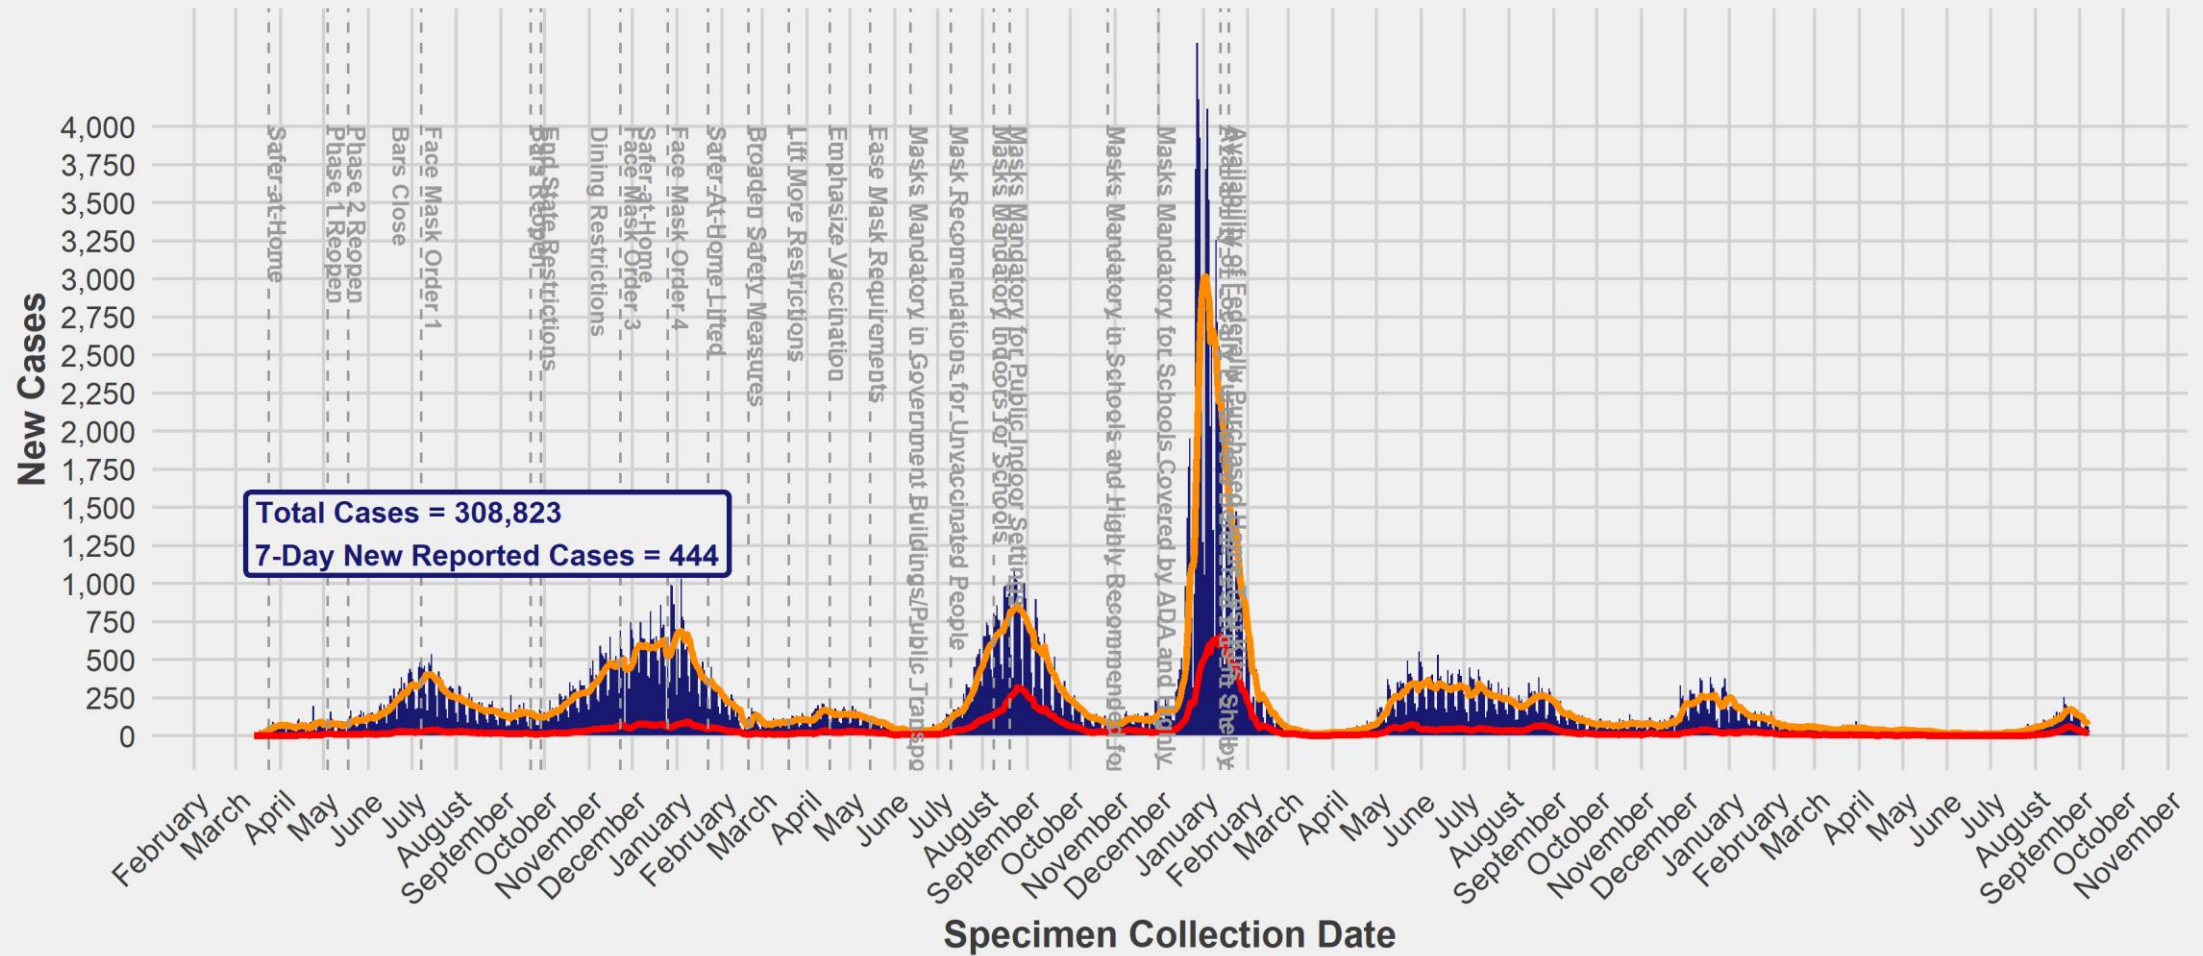

Cumulative COVID-19 Cases by Report Date

September 11, 2023

New COVID-19 Cases by Specimen Collection Date

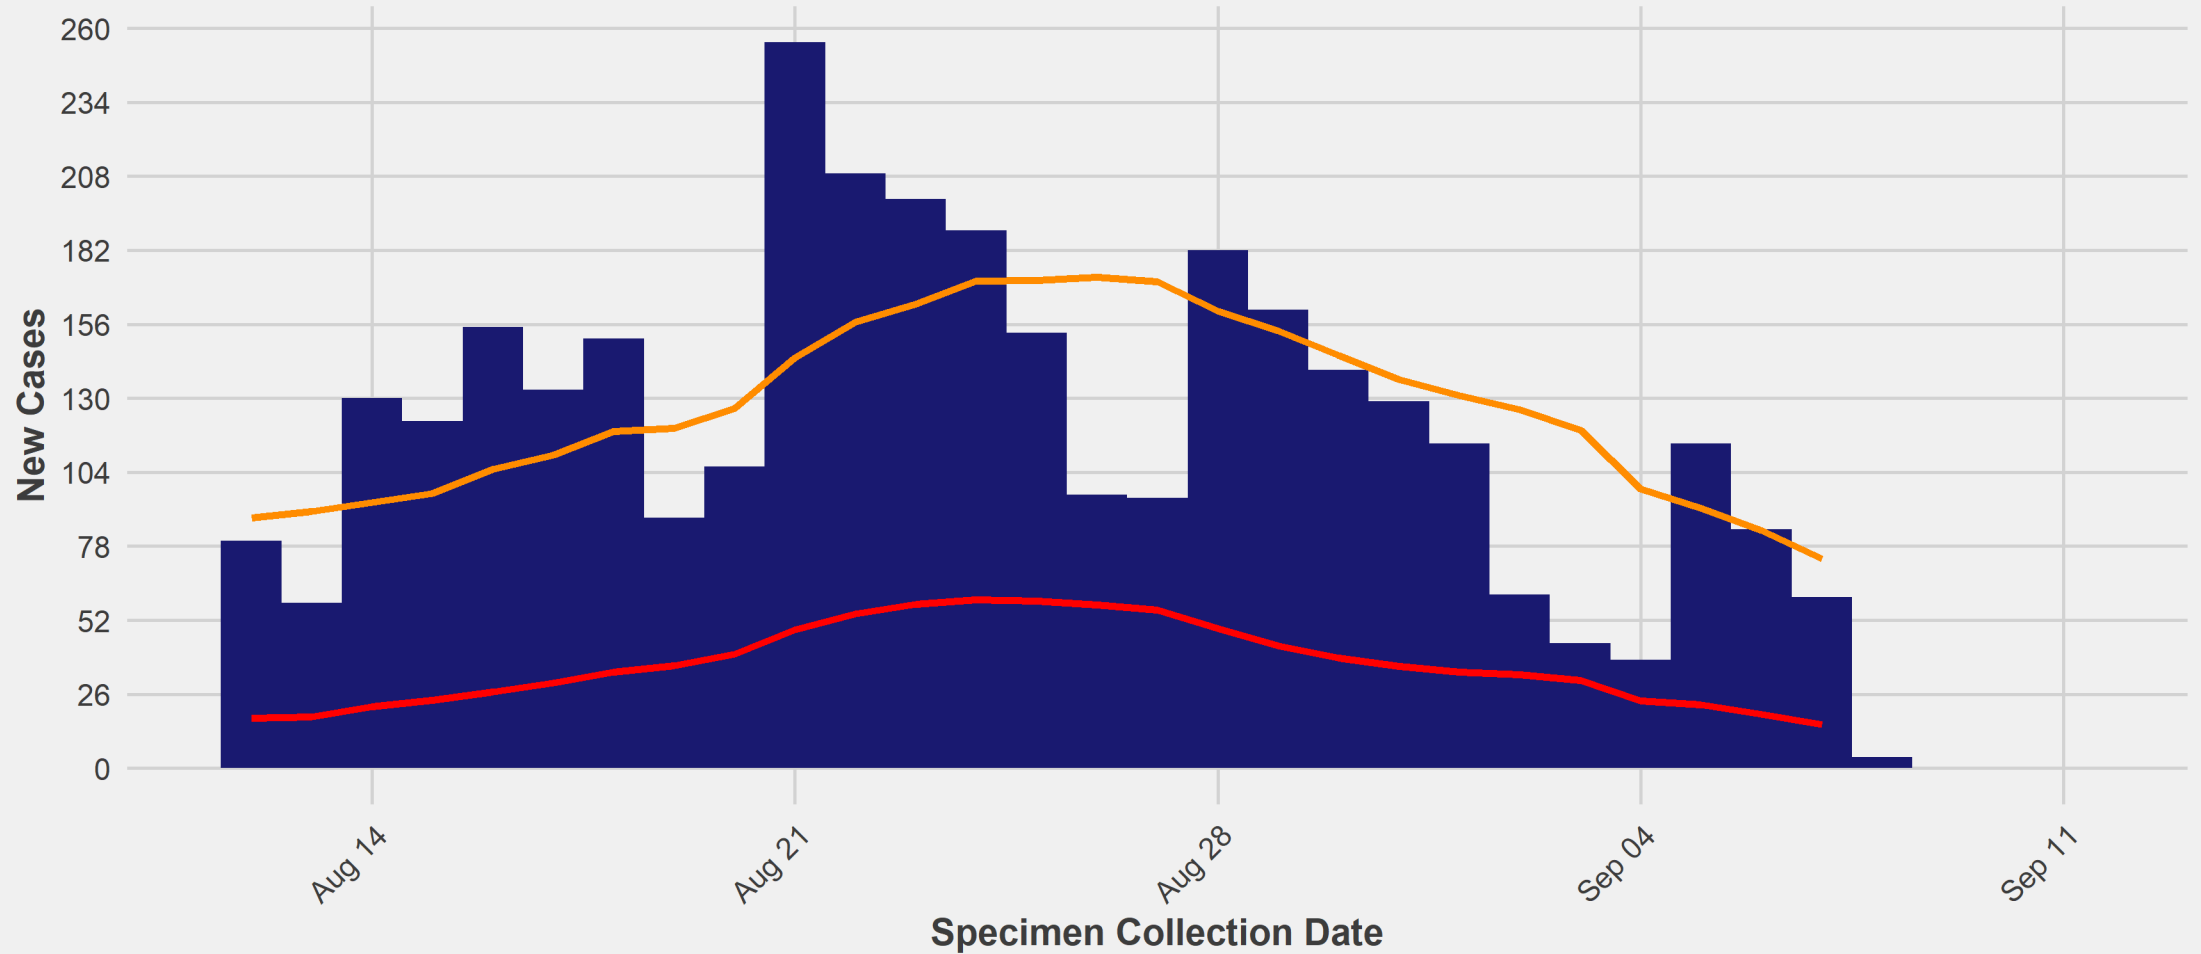

September 11, 2023

Excludes cases with missing specimen collection dates (N = 5,949)
Data Source: National Electronic Disease Surveillance System (NEDSS)
Note: Pediatric Cases Denoted in Red

30-Day COVID-19 Cases by Specimen Collection Date

September 11, 2023

30-Day Cases by Specimen Collection Date = 3,351, 7-Day New Reported Cases = 444

Data Source: National Electronic Disease Surveillance System (NEDSS)

Note: Pediatric Cases Denoted in Red

COVID-19 Cases and Deaths by Status

September 11, 2023

	Total	Confirmed	Probable
Cases	308,823	266,480	42,343
Deaths	3,715	3,250	465

COVID-19 Deaths

September 11, 2023

COVID-19 Deaths	N	%
Yes	3,715	1.2%
No	305,108	98.8%
Total	308,823	100.0%

Median Age	Age Range
72	10-107

COVID-19 PCR Tests

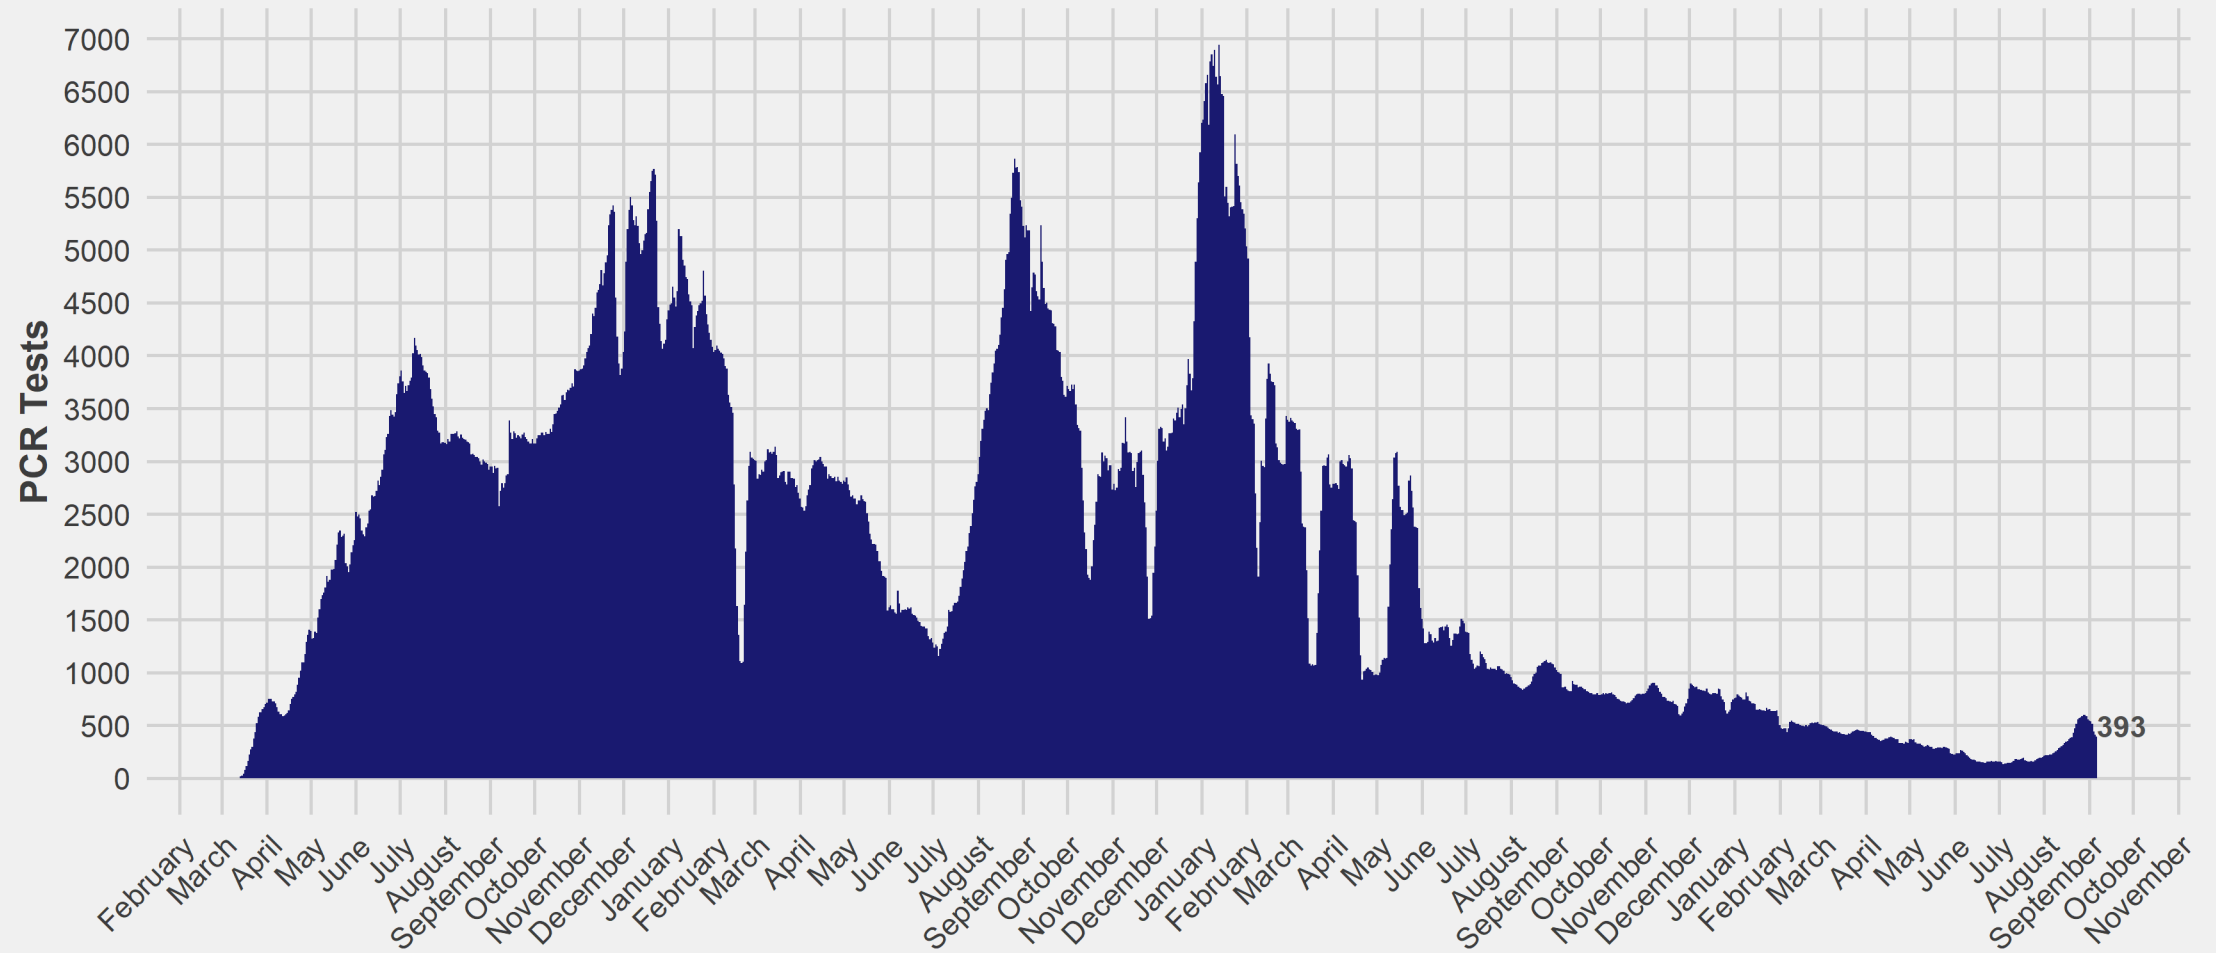

September 11, 2023

PCR Result	N	%
Positive	312,930	11.2%
Negative	2,483,402	88.8%
Total	2,796,332	100.0%

COVID-19 PCR Tests (7-Day Rolling Average)

09/11/23

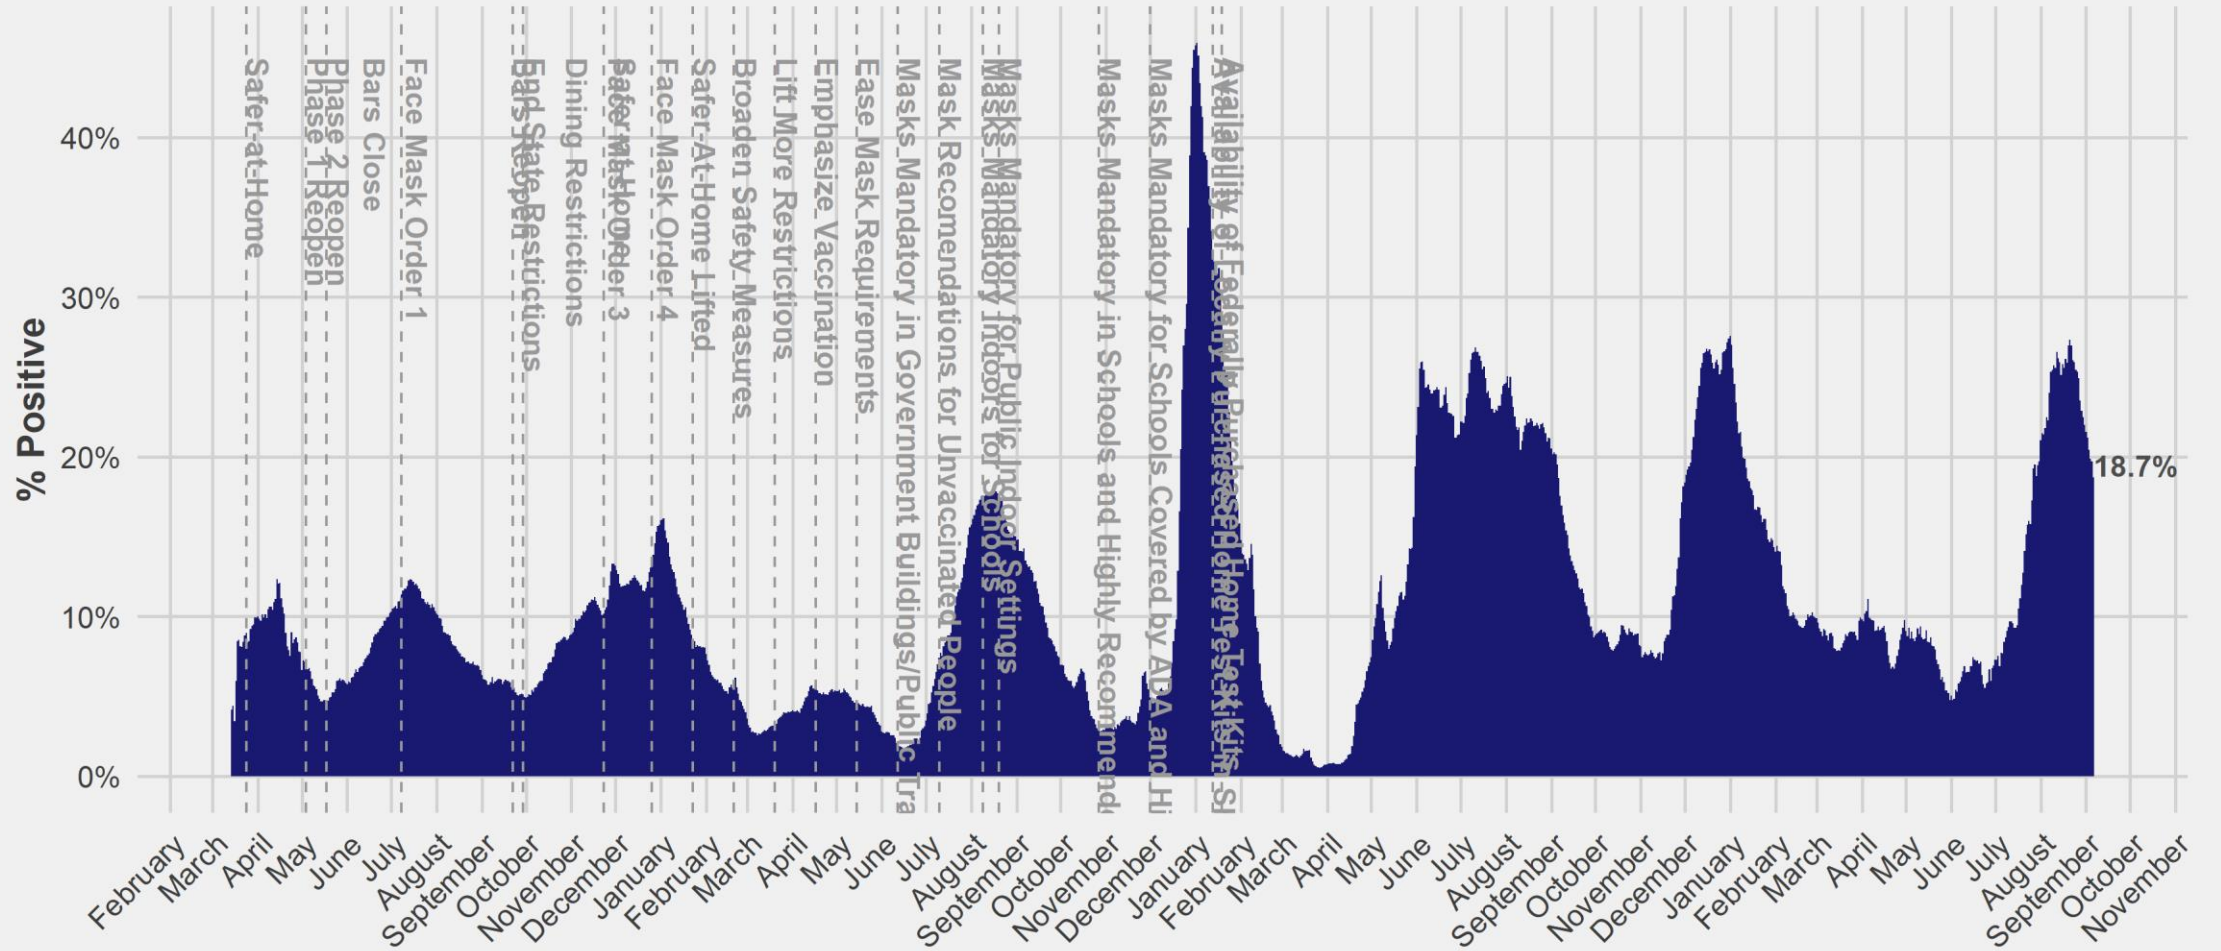

Note: Chart excludes tests with missing collection date (N = 187; Total = 2,796,332)

Data reported is lagged by 5 days

Data Source: National Electronic Disease Surveillance System (NEDSS)

COVID-19 Test Positivity Rate (7-Day Rolling)

09/11/23

Note: Chart excludes tests with missing collection date (N = 188; Total = 2,796,332)

Data reported is lagged by 5 days

Data Source: National Electronic Disease Surveillance System (NEDSS)

COVID-19 Quick Reference Numbers

September 11, 2023

Metric	Number
Total Tests	2,796,332
Total Cases	308,823
New Reported Cases (7-day total)	444
COVID-19 Cases Tested within 14 Days	1,187
Total Deaths	3,715
New Reported Deaths (7-day total)	1
New Reported Deaths (7-day average)	0.14
Pediatric Cases Tested within 14 Days	275
